

## 372 AGRIFLEX- Lands & wins in Normandy!

**Customer:** Cyril & Jean Fortin  
**Location:** Normandy, France  
**Machine used:** JD 8350  
**Application:** Agriculture and Allied  
**Tires in use:**  
**372 AGRIFLEX – 600/70R30 & 710/70R42**

Mr Jean Fortin who lives in Normandy, France, recently upgraded the tyres on his John Deere 8530, a 350HP, MFWA tractor with Alliance 372 AGRIFLEX (IF) tyres, from that of a leading brand he used earlier.

The sizes are, in the rear axle 710/70R42 179D A 372 AGRIFLEX CFO and in the front 600/70R30 159D A 372 AGRIFLEX CFO. Both the tyres are built with Stubble guard compound.

The tractor works 700 hours per year towing a large triple axle Mauguin slurry tanker with a capacity of 25000 litres. This Slurry tanker is fitted with Alliance 390 HD Flotation Radial in size 750/60R30.5 190D. This slurry tanker is used to manure the field before the field is seeded.

The driver Cyril, who is the son of Mr Fortin says, " With these new IF Alliance tyres, the design is perfect for our road and field application, to get a good comfort on the road and a better traction on the field with a good self-cleaning especially during the wet season in Normandy."

"The tractor is working hard with this big slurry tanker, and as we know Alliance and their good results on our slurry tankers, it was not difficult for us to choice Alliance IF tires for our tractor adds Mr Fortin"

The Fortin duo provide agricultural contract service to the farmers in their regions with:

1. Five John Deere Harvesters (2 with the Alliance tires 30.5LR32 178A8 A 360)
2. Three JD Silage-cutters
3. Four balers
4. Two Mauguin slurry tankers with the 750/60R30.5 190D A 390 HD
5. Five John Deere tractors (one JD 7720 with the 650/65R42 and 540/65R30 A 365 Alliance)
