

## French farmer finds the FarmPRO and AGRIFLEX to be stable partners!

**Customer:** Multitrav LOEUILLY  
**Location:** North of Paris, France  
**Machine used:** DEUTZ-FAHR 6190TTV  
**Application:** Agriculture and Allied  
**Tires in use:** FarmPRO 13.6R36  
 354 AGRIFLEX 380/90R50

Multitrav LOEUILLY, an agricultural contractor is located in the region north of Paris in France. They have a DEUTZ-FAHR 6190TTV tractor equipped with Alliance FarmPRO size 13.6R36 in the front and the new IF tyre 354 AGRIFLEX in the rear axle, size 380/90R50.

The machine has completed 1717 hours, of which 250 hours were dedicated to fertilizer seeding. The machine spends typically 30% of the time on road and 70% in the fields.

The work area being vast and distances long, the work cycle could take up to 4hours per job. The soil is loamy, without stones. The terrain comes in different types which includes slopes and flat swathes of land.

They bought these tyres for one application - fertilizer sowing in 1500 hectares for about 250 hours.

This is the first experience for the driver with the narrow Row Crop tyres. He feels that the tyres provide good stability for the machine. The machine is exceedingly stable with on slopes with a 2500 kg seeder attached to its three point hitch. The tyres also handle the ruts in the fields easily and can cross such fields easily without losing stability.

There is very less slip and very good traction. The drive on roads is also very smooth.

There is no road noise intrusion into the cabin. The driver is pleasantly surprised with the good tread wear even with so much distance covered on the road.

The driver is very satisfied about the tires and thinks that this technology is interesting for beets and maize sowing and would like to fit IF on one other tractors due to its good performance on slopes.

## ATG

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products.

All of the Group's tires are developed and tested at its advanced R&D centers.
