

## Galaxy Garden-Pro, the right tyre for the Municipality of Vingt Hanaps!

**Customer:** Municipality of Vingt Hanaps (Orne department)  
**Location:** Normandy, France  
**Machine used:** Kubota B2530  
**Application:** Municipal / Landscaping  
**Tires in use:** Garden-Pro 240/60R12 89A8  
 Garden-Pro 280/70R18 114A8

The Municipality of Vingt Hanaps, with a population of 469 (in 2012) is located in Normandy, France. It covers an area of 11,58 km<sup>2</sup>. Mr. Bothet is responsible for the maintenance of the municipality's green area. And to do exactly that he has the ideal machine, a 2014 Kubota B2530 utility tractor.

This tractor is fitted with Galaxy's benchmark tyre the Garden-Pro R-3+ radial. The front axle tyre is 240/60R12 89A8 and the rear is shod with 280/70R18 114A8.

The principal job that Mr. Bothet uses the Kubota is for mowing lawns. He does it with a rear mounted Agram mower of 1.5 meters. The areas covered include school, church, town, vine etc, which cover more than 7000 to 8000 square meters. The region also has sloping terrain to be tackled.

Mr. Bothet appreciates the traction provided by the Garden-Pro in the slopes, especially the ones between rows of vine. This, according to him, is much better than the rear discharge mower Kubota GR1600 II fitted with turf tyres.

With the Galaxy Garden-Pro it is not required any more to come back to the road by the road on the top

of the vine. He can now cross the slopes without slipping.

Mr. Bothet also notes the good protection of the lawn despite many maneuvers in small and confined plots all around the town. The tyre's non aggressive pattern on the grass and lawn is good for soil protection. Garden-Pro also has excellent self cleaning properties during watering operations.

The tyres provide good handling on asphalt, smooth ride, low noise and lesser vibrations on the tractor. He says that the Garden-Pro is indeed a very good compromise for Municipality operations.

Mr. Bothet and his Kubota on Galaxy Garden-Pro

Alliance Tire Group specializes in the development, manufacturing, and marketing of tires for Agriculture, Forestry, Construction, Industrial, Earth Moving and OEM applications, under the Alliance, Galaxy, and Primex Brands.

Backed by nearly 60 years of experience, Alliance Tire Group serves customers in 120 countries and offers a full spectrum of products, from basic entry-level tires to a broad range of superior quality value-added products.

All of the Group's tires are developed and tested at its advanced R&D centers.
